

# AeroCom 6th workshop

hosted by Laboratoire d'Optique Atmospherique, France

- ***goal of the meeting:***

- review progress of the AeroCom working groups.  
discuss AeroCom database usage and its development.
- review status of model-data comparisons and benchmark tests.
- agree on standards on aerosol model diagnostics for future model experiments.

- ***format of workshop:***

- short summary presentations of 15 min and ample time for discussion.
- progress reports from each working groups shall be assembled on beforehand.

# AeroCom 6<sup>th</sup> workshop

Thursday, Oct 25

14:00	<b>AeroCom status</b>	Schulz
	<b>aerosol microphysics</b>	Liu
15:00	<b>vertical transport</b>	Textor
15:30	<b>aerosol closure</b>	Wilson
16:00	<i>coffee break</i>	
16:30	<b>emissions</b>	Diehl
17:00	<b>remote sensing data</b>	Kinne
17:30	<b>HTAP-experiments</b>	Schulz
19:30	<i>dinner</i>	

Friday, Oct 26

9:00	<b>hindcast experiments</b>	Chin
9:00	<b>radiative forcing</b>	Stier / Myhre / Wild
9:30	<b>aerosol absorption</b>	Koch
10:00	<b>indirect effect</b>	Quaas
10.30	<i>coffee break</i>	
11:00	<b>dust</b>	Ginoux / Tegen
11.30	<b>AeroCom + AC&amp;C</b>	Schulz
12:00	<b>wrap up</b>	

# meeting location
